

AMENDMENTS TO THE CLAIMS

Kindly amend the claims as follows:

1. (Canceled)
2. (Currently Amended) The vaccine according to integrated viral complex of claim 37, wherein said virion is ~~as~~ are DNA virions.
3. (Currently Amended) The vaccine according to integrated viral complex of claim 2, wherein said DNA virion is ~~ss~~ are a double stranded DNA virions.
4. (Currently Amended) The vaccine according to integrated viral complex of claim 3, wherein said virion ~~double stranded DNA virions belong to the~~ is a herpes viruses.
5. (Currently Amended) The vaccine according to integrated viral complex of claim 4, wherein said ~~herpes~~ virus is Marek's disease virus.
6. (Canceled)
7. (New) A pharmaceutical composition comprising said vaccine and stabilizing components; wherein said components are selected from a group consisting of carriers, cryoprotectants and excipients.
8. (Currently Amended) The pharmaceutical composition according to ~~of~~ claim 7, supplied as an article of manufacture including packaging material and instructions for use.
9. (Currently Amended) The pharmaceutical composition according to ~~of~~ claim 7, wherein said vaccine comprises virions ~~are double stranded~~ DNA virions.
10. (Currently Amended) The pharmaceutical composition according to ~~of~~ claim 9, wherein said double stranded DNA virions ~~are double stranded DNA virions~~ herpes viruses, especially Marek's disease viruses.
11. (Canceled)
12. (Canceled)

13 - 28. (Withdrawn)

29. (Currently Amended) A method of ~~vaccination which employs an integrated viral complex, the method comprising administering to a subject at least one dose of an amount of an integrated viral complex~~ said vaccine sufficient to elicit an active immune response in a subject.

30. (Currently Amended) The method according to claim 29, wherein said subject is a member of an avian species.

31. (Currently Amended) The method according to of-claim 29, wherein said vaccine ~~integrated viral complex includes comprises of double stranded DNA~~ virions.

32. (Currently Amended) The method according to of-claim ~~31~~29, wherein said double stranded DNA virions ~~are double stranded DNA virions herpes viruses.~~

33. (Currently Amended) The method according to of-claim 32, wherein said ~~double stranded DNA virions belong to the herpes virus is Marek's disease virus~~ es.

34. (Canceled)

35. (Currently Amended) The method according to of-claim 29, wherein said administering administration is administered ~~conducted in ovo to a chicken embryo in ovo at 18 days of incubation.~~

36. The method according to of-claim 29, wherein said administering administration is ~~conducted via IM injection, subcutaneous injection or by spraying methods to chicks at from 1 day of age.~~

37. (New) A live vaccine comprising a non viable dried cell having a cell membrane and a viable virion contained within said cell.
